FAMILIES

welcome

Your family's story deserves to be beautifully preserved. At The Studio North East, we create timeless family portraits that celebrate your connection and become treasured pieces in your home.

From your first enquiry to your time in the studio, we offer thoughtful guidance and a warm, personal welcome. With an experienced photographer gently guiding your session, you can relax knowing there's time for little ones to settle, personalities to shine and natural moments to unfold.

There's no need for perfect poses or perfectly behaved children. We'll take care of the details, creating a relaxed experience and beautiful portraits that feel unmistakably yours.

stress free photo shoot with your FAMILY

Family photographs are about the people you love and the connections you share. You do not need to know how to pose or have children who sit perfectly still. A little preparation can help everyone arrive feeling more relaxed.

TELL US ABOUT YOUR FAMILY

Let us know who is coming and the ages of any children. If there is a particular photograph you would love, such as the whole family together or grandparents with the children, tell us what matters most to you.

MAKE IT FEEL LIKE A TREAT

Talk to children about having photographs taken together in a positive, relaxed way. There is no need to practise smiles or promise perfect behaviour. Let them know they can be themselves.

KEEP YOUR USUAL ROUTINE

Where possible, plan meals and naps around your appointment so little ones arrive rested and fed. Avoid skipping a nap to fit in extra preparation. If your booked time is likely to be difficult, get in touch before your visit.

HELP US MAKE YOU COMFORTABLE

Please tell us in advance about any mobility, sensory or communication needs, or anything else that would help us prepare. If anyone feels unwell before the session, contact us to discuss your appointment

Comfort Looks Good

Choose clothes that feel like you. When everyone feels comfortable, it is easier to relax, move and enjoy being together.

COORDINATE YOUR COLOURS

Start with two or three colours that work well together, rather than dressing everyone identically. Cream, soft blue and denim make one simple combination; warm neutrals with muted green make another.

KEEP THE FOCUS ON FACES

Plain fabrics and subtle textures photograph well. Large logos, bold slogans and busy patterns can draw attention away from your faces. Lay everyone's outfits together beforehand to see how they work as a group.

THINK ABOUT THE WHOLE OUTFIT

Choose clothes that let you sit, cuddle and move comfortably. Check shoes and socks too, as they may appear in your photographs. If a child dislikes an outfit, a comfortable favourite is usually a better choice.

BRING A BACKUP!

A spare outfit for younger children is useful for spills or accidents. If you would like a second look, ask us before the session so we can advise what will work within your booking.

A SIMPLE STARTING POINT...

A spare outfit for younger children is useful for spills or accidents. If you would like a second look, ask us before the session so we can advise what will work within your booking.

*** Up to three outfits are permitted per person for each photography session.**

come as *you are*

There is no need for a perfect performance. A shy start, a burst of energy or a little cuddle are all part of family life.

PACK THE ESSENTIALS

Bring water, a small mess-free snack for children and any usual changing supplies. A favourite comfort toy can help little ones settle. You are welcome to bring a meaningful item you would like included; let us know beforehand if it needs a particular set-up.

LEAVE A LITTLE BREATHING SPACE

Check your booking confirmation for your appointment time and travel details. Allow time for the journey so you do not feel rushed. If you are delayed, please call us as soon as you can do avoid dissapointment.

DURING YOUR SESSION

Your photographer will guide you through positioning and simple ways to interact. Focus on each other, enjoy the cuddles and let us help with the photographs. If a child needs a moment to settle, let us know. Please keep children supervised throughout your visit.

YOUR PHOTOGRAPHS AND NEXT STEPS

Before you leave, check how and when you will see your photographs. If you would like to explore extra images or products, ask us for the current options and prices. Your booking confirmation is
the best place to check what your session includes.

image editing

Before we showcase your images, our experienced design team will spend hours enhancing your photographs to the highest standard possible. Whether skin tones need adjusting, or if baby has a little rash or dry skin it can be removed to create that lovely soft and even complexion. Our team will always try and make these enhancements whilst avoiding that unnatural or over-airbrushed look.

pricing on extra images

Our special offers do change regularly from month to month so we can't send our price list. But to give you an idea we do offer package deals and prints starting from £45. We also offer high resolution digital files with print rights for £50, we can do digital file packages too that work out as little as £5 per image when a digital package is purchased.

We are far cheaper on comparable prints and products than other like for photography studios in the north east such Venture Photography, Bounty, and the Click Group. We also offer easy payment plans with no credit checks. We can explain more at your viewing appointment but I hope that helps!
